Due to your [redacted] interest in the Patriotic
Party & "Constitutionality and Politics", the encl.
may be of interest. The encl. newsletter gives the-
ir consideration of constitutionality and politics
at the present time. I mentioned the case of Mr.
John F. Kennedy and illegation by certain newspapers
that his remains are not in Arlington. Should the
allegations be true that his remains were never sent
to DC be true, it would be of interest. If the al-
legation be true that burial was by sea off Annassas'
Island this year, then I believe that this would be
a constitutional catastrophe. I believe investig-

WILL OUR U.S. REPUBLIC SURVIVE ?

NOT UNLESS WE RETURN TO CONSTITUTIONAL GOVERNMENT

If we are to return to our once outstanding greatness of a nation dedicated to freedom, liberty and justice, then we must return to the form of government our founding fathers established. A Republic - a limited democracy - we must return to absolute conformity with our Constitution which is the only guarantee that our government is ruled by law and not by men.

The chaos - anarchy - which is rampant in our nation today is a direct result of "bought" politicians grasping for power and ever more power - and hence, willing to ignore their oath of office. To swear to an oath of office with no intentions of fulfilling that oath, is perjury and is absolutely as dishonest and immoral as man can be - it shows a complete - total lack of principal, of honor, of integrity, etc., the very virtues the members of the government of a free responsible society must have.

Far from representing the people within the definitive, clear and precise framework of our Constitution, these perverted, immoral, dishonest politicians deliberately with malice aforethought, subvert, denigrate, prostitute, deliberately misinterpret and ignore the dictates of the Constitution. It is these traitors to our Constitution who are socializing, communizing this once great Republic into a people of degenerate conformists accepting the fraud of equality, the fraud that all men are equal - that only environment affects man. Physical anthropologists have for years proven that no two men are born equal. That man is what he is by what he inherits from his parents and his ancestors. The genius of our Republic's founding fathers knew this and it was for this reason our founding fathers set up our Constitution - our government - to grant all men the right to their life, to equal justice and equal opportunity, to their property and to enjoy the fruits of their labors. The genius of these men set up a government limited by law to "government by the governed", the premise being that the best government is one that governs least - and this ensures that every man would have maximum liberty - freedom - providing they accepted the penalty of maximum responsibility. Knowing man and his tendency toward avarice and greed, these great men set up a limited government - absolutely limited to specific powers as defined by the Constitution. Our citizens' freedom and property were protected - justice and opportunity guaranteed by this greatest of documents - the United States Constitution.

Today, this once great Republic, now a sorry degenerating democracy, is reaping the harvest of corrupt government - government by man not of law - illegal government dictating despotic regulations by the assumption of powers forbidden by the Constitution, by greedy men who usurp power and deliberately fail to live by and be governed by their oath of office.

To recapture - to return to the "government by law" that our founding fathers established, where once again our citizens can reap the benefit of their labors under equal opportunity and justice; we must return to our clear, concise, definitive Constitution and be governed only by it - to the letter.

To return our Constitution to power will take patriotic Americans who love freedom and this Constitutional Republic above all else and who realize that this Constitutional Republic is the beacon to all men for self-determination - to overthrow their bonds and chains of slavery under despotism. We must elect men to office who when sworn into office, will abide by that oath to the letter.

~~2-DIRECTOR~~

That oath is -

"I do solemnly swear that I will support and defend the Constitution of the United States against all enemies, foreign and domestic; that I will bear true faith and allegiance to the same; that I take this obligation freely without any mental reservation or purpose of evasion; and that I will well and faithfully discharge the duties of the office in which I am about to enter, so help me God."

Every official of government and every officer of the armed forces from the lowest to the highest take that oath, and must obey, enforce and live up to it as it decrees or resign or be removed from office.

No man who is or has been a member of or supports socialism, communism, World Federation, United Nations, the Council of Foreign Relations or any organization that seeks interdependence with or subservience to any international or world government can take that oath of office without evasion or reservations. If any such corrupted - tainted - officials take the oath, they commit perjury and they must be recalled, impeached and prosecuted for perjury. In a free society every official's record is documented and open for scrutiny and their every action must be continually debated, discussed and weighed to prevent arbitrary unconstitutional actions.

Any man as a citizen of the U.S. may hold any belief he wishes against government, for communism, against our way of life, etc. - this is his right - a freedom that is guaranteed by the Constitution but he has no right to take the oath of office knowingly holding the Constitution in contempt - or having any desire for or giving any allegiance to any movement that would eliminate, denigrate, ignore or subvert any part of the Constitution and he so swears when he takes -willingly- the oath of office.

Whether this nation survives or falls, lives or dies, grows or perishes, will be dependent upon the elimination from this government - (in all branches, Executive, Legislative and Judicial) of any and all officials who fail to uphold the oath of office or who perjured themselves when taking that oath of office.

Any man who takes the oath of office with any reservation or with any evasion cannot bear true faith or allegiance to the Constitution, to the United States. We must "judge man by his fruits". We must judge man by his record. We must expose the actions of every official and weigh the merits of each. We must return to the morals that are mandatory in a free society - our leaders must have - must show by their actions that they are patriotic, moral, honest, loyal, of high integrity, intelligent and above all, love the Constitution and the sovereignty of the U.S. Only with such leaders - officials - officers can our great Constitutional Republic return to its rightful place in history as a society of free men.

The managed - controlled media - T.V., newspaper, magazine, movies, etc., must be freed. Only with the truly free press of our founding fathers, can corruption, dishonesty, perversion, immorality and treason be exposed and justice carried out. Our citizens must have the facts to judge and support justice. Only then will our citizens know the truth and the truth will keep them free.

We must return to the moral laws of our founding fathers in allowing our citizens maximum freedom. We must not take from some to give to others. We must allow every man the right to not work, to go hungry, to be dirty if he so desires, so long as he does not infringe upon the rights of others or break the laws of our society but so long as he chooses to live within our society, he must obey the laws. If laws are considered unjust they must be changed in the legal way as provided by our Constitution. All men must be allowed to pursue life, liberty and the pursuit of happiness to the utmost of his capability so long as he infringes not upon the rights of others or breaks the laws of the society. All men must be allowed to choose, to discriminate in selecting his job, his associates, his neighbors, schools, - to discriminate is to exercise freedom as guaranteed by the Constitution. These things, our founding fathers in their wisdom, guaranteed every citizen through the Constitution.

CLAUDE R. RITCHESON

It is with a deep sense of loss that we heard of the death of Claude R. Ritcheson, of Rogers, Arkansas. He was a real patriot - always ready and willing to do anything he could for his Country. He will be missed by many friends.
